Data Set: Survival of Passengers on the Titanic

Data File: Titanic.txt

Source: Downloaded from http://biostat.mc.vanderbilt.edu/twiki/bin/view/Main/DataSets

Variables:

survived: yes or no.

age: in years (missing = NA).

passengerClass: 1st, 2nd, 3rd.

sex: male or female.

Notes:

- There are several versions of this data set available from various sources; this version includes information only on passengers (not crew) and has exact age for about half of the passengers.
- Passenger names are also given in each data record. There were three passengers with duplicate names; I indicated these by pre-pending "(1)" and "(2)".
